

THE POWER
OF BEING
UNDERSTOOD

IT INFRASTRUCTURE *RAPID ASSESSMENT*®

Quick-hit diagnostic of an organization's critical IT infrastructure processes, staff and systems

Empowering digital transformation

Organizations are constantly looking for new ways to become more competitive. Regardless of what industry you're in, the pressure from stakeholders to deliver high-quality results has escalated. One solution is to better align your information technology (IT) strategy with your organization's overall vision. By doing so, you can more effectively achieve long-term goals and objectives.

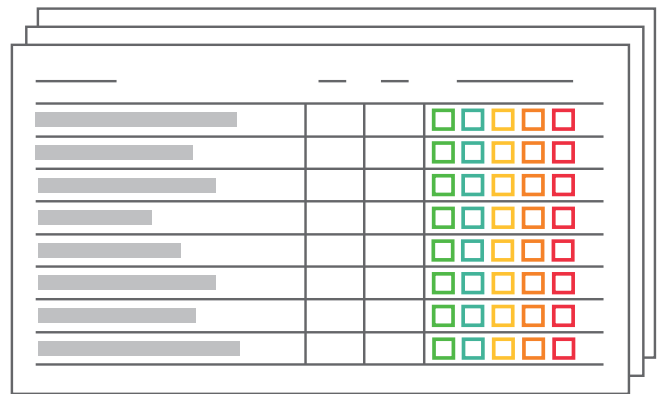

At RSM, we help you plan, articulate and execute a practical, measurable technology strategy that envisions the future, while addressing your process optimization and performance concerns. During the IT Infrastructure *Rapid Assessment*® process, our technology advisors evaluate the current state of your IT infrastructure, your company's future technology strategy and opportunities for improvement.

A comprehensive assessment of your IT environment

Our IT Infrastructure *Rapid Assessment*® service is a quick-hit diagnostic tool aimed at discovering risks and opportunities in an organization's infrastructure. As part of the assessment, we help you create an individual technology strategy to address your unique risks and opportunities, thereby putting you on the path to realizing significant operational and technological improvements.

The areas covered by RSM's IT Infrastructure *Rapid Assessment* include:

- Microsoft cloud and on-premise infrastructure
- Enterprise productivity, collaboration and mobility
- Backup and recovery planning

- Threat protection and security operations
- End-user computing and IT service management
- Network and unified communications
- Data center and virtualization
- Staffing

Deliverables

RSM's IT Infrastructure *Rapid Assessment* produces a scorecard which ranks your organization across each assessment area, as well as a final report detailing current state, risks, opportunities and recommendations. Additionally, the report provides a strategic road map of recommended IT projects for the next 12 to 24 months.

Experienced advisors who understand your needs

When your organization is looking for a comprehensive technology solution provider to help maximize your technology investments, you can count on RSM to deliver.

We offer the following:

- Increased satisfaction with IT infrastructure and investments
- More effective use of technology within your organization
- Increased competitive advantage as a result of more efficient and effective systems
- A road map to responsibly transition IT services to the cloud
- Balanced recommendations that are sized correctly for your organization

The RSM advantage

Our business is based on understanding and building trusting relationships with our clients, allowing us to grow on the strength of client referrals. When you work with RSM, you have access to our extended business network, built over many years of service.

With more than 30 years of experience, RSM will help you adjust rapidly to changing market conditions—and transform change into opportunity.
