

Simplify Payment Processing and Save Money with iMIS Pay Central

iMIS Pay Central – powered by Global Payments – makes payment processing simple, secure, and affordable. Save time and money with low rates, automatic card updates, real-time reconciliation, next day funding, and significantly reduced PCI requirements.

How it Works

iMIS Pay Central is both a credit card gateway and a processor, so you don't have to manage multiple vendors. You'll have access to a secure, online portal to see your transactions in real-time, process reconciliations, run or export reports, and accept credit card payments offline.

You'll also save money with the same low rate for all transaction and card types (or we'll match your current rate). Best of all, there are no setup fees, monthly minimums, or hidden charges.

globalpayments

Global Payments is a worldwide leader in payments technology and software solutions.

Key Features

- ✓ Simplified PCI Compliance
- ✓ ACH/eChecks Support
- ✓ Recurring Payments
- ✓ Decline Minimizer
- ✓ Next Day Funding
- ✓ Real-Time Reconciliation

Simplified PCI Compliance

With iMIS Pay Central, PCI Compliance is a breeze. PCI Assure, powered by Global Payments, allows iMIS users to streamline the validation process in as little as 15 minutes. In addition, with the new iMIS Cloud Data Vault, your business is eligible for a \$100,000 breach guarantee. Rest easy, knowing that your customer's card data and your business is processing on the industry's most secure platform.

ACH/eChecks Support

ACH processing is a clean and easy way to accept eChecks and bank drafts from your customers. Fully integrated within iMIS Pay Central, your business is able to streamline ACH transactions and minimize the cost of electronic payments. Real time reconciliation and reporting allows you to process, track and manage your ACH payments without ever leaving iMIS Cloud.

Recurring Payments

AutoPay, when combined with iMIS Pay Central, delivers the most robust recurring payment solution on market. Automate membership dues, donations and other future payments directly within iMIS Cloud. AutoPay supports both credit card and ACH transactions, giving your customers the freedom to pay how they want, when they want.

Decline Minimizer

Decline Minimizer is a dream come true for any organization with repeat donors, recurring payments or membership dues. Every night, behind the scenes, iMIS Pay Central retrieves new data (expiration dates and 16-digit card numbers) for credit cards stored in our Cloud Data Vault. This ensures your future transactions process successfully, without interruption.

Next Day Funding

iMIS Pay Central supports next-day funding, directly to your bank account. Unlike other processors who like to gain interest on your money or place your funds into a "holding" account, iMIS Pay Central offers next-day deposit solutions to streamline your cash flow and collections. Your organization will receive 100% (gross amount) of your money deposited on a daily bases.

Real-Time Reconciliation

You asked for it, and we listened. Your organization can reduce the dependency of third-party portals required for payment reconciliation and status checks. iMIS Pay Central supports fully integrated voids and refunds, eliminating the need to process/post between separate systems and reducing the potential for human error. Real-time ACH status updates happen directly within iMIS Cloud, creating an easy, seamless reconciliation process.
